

PREMKUMAR P

Full Stack Developer · MERN Stack

Viralimalai, Pudukkottai, Tamil Nadu | [+91 6369081472](tel:+916369081472) | p.premkumar7578@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Detail-oriented Full Stack Developer specialising in the MERN Stack, experienced in building scalable web applications with strong problem-solving and debugging skills. Passionate about API development, database design, and secure authentication — seeking an entry-level role to contribute to innovative projects and grow within a collaborative team.

SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB (Indexing, Queries)

Tools: Git, GitHub, Postman, Netlify, Vercel

PROJECTS

E-Commerce Web Application — MongoDB, Express, React, Node.js

Developed a scalable e-commerce platform with dynamic product listings, cart management, and integrated payment gateway. Focused on automation, pricing logic, and modular architecture to support client-facing deployments and freelance monetisation.

Expense Tracker AI Agent — Python, Google Gemini AI, OCR, SQLite

Built a feature-rich Telegram bot that logs expenses from natural language text, receipt photos, voice notes, and payment screenshots. Integrated Gemini AI and OCR (Tesseract/EasyOCR) for receipt line-item extraction, budget-limit alerts, and multi-format export (Excel, CSV, PDF, graphs).

EDUCATION

B.Tech, Information Technology

2022 – 2026

M.A.M College of Engineering CGPA: 7.5

HSC, Govt. Higher Secondary School

2021 – 2022

57%

SSLC, Govt. Higher Secondary School
